

DID YOU KNOW?

In Louisiana, colorectal cancer is the **4th** leading cause of cancer death.

Colorectal cancer is the **2nd** leading cause of cancer death in Black and African American people in the United States.

Colorectal cancer rates in Louisiana's Acadiana region are among the highest in the country.

Screening can help prevent colorectal cancer or catch it early when it is easiest to treat. Your patients should get screened for colorectal cancer if they:

- ✔ Are 45 years of age or older or
- ✔ Have a family history of colorectal cancer
